Homework #1

1) Download and install Microsoft Visual Studio Community 2017 (it is free). Make sure you install the .Net Desktop Development components.

2) Read the CSET3200 Course Syllabus posted on Blackboard. Pay particular attention to the Grade Section

3) Give me a detailed description of your programming abilities.
   a. What languages have you used – level of experience
   b. Your knowledge of:
      1. Condition Statements
      2. Loops
      3. Sub-programs

4. I will be offering a non-mandatory 1 day per week live online video Lecture/Q&A session. Please submit your preferred day of week and time.

What to turn in:
Create a PDF file with your answers to questions 3 and 4 and screen shots of:
   a. **Microsoft Visual Studio Community 2017 running**
   b. **CSET3200 Course Syllabus Opened**

Turn in the PDF file to Blackboard
